

# Slides Overview

- Format: Markdown decks compatible with Marp (VS Code Marp extension or marp-cli)
- Export: Open a `.md` deck in VS Code → Marp: Export slide deck (PDF/PPTX)
- Structure: `slides/dayN/NN_topic.md` per subject per day

## Rendering Locally

- VS Code: Install “Marp for VS Code” extension; open a deck and export
- CLI (optional): `npm i -g @marp-team/marp-cli` then `marp`  
`slides/day1/01_orientation_use_cases.md`

## Deck Index

- Day 1: Orientation & Python basics, inventory bootstrap, TextFSM vs NAPALM.
